0.0.0.0.1 Clean Data

0.0.0.0.2 (a) Using the data for 1981, estimate a simple OLS regression of real house values on the indicator for being located near the incinerator in 1981. What is the house value "penalty" for houses located near the incinerator? Does this estimated coefficient correspond to the 'causal' effect of the incinerator (and the negative amenities that come with it) on housing values? Explain why or why not.
